Changing the face(s) of science . . .

Jim Holland Summer Science Programs
at Indiana University in Bloomington, Ind.

Our goal is to address the ethnic and racial disparities that exist and to increase diversity in the STEM fields.

WANTED:
High-achieving, underrepresented students in grades 8-11 who are curious about science.

ELIGIBILITY:
• At least 3.0 GPA (non-weighted)
• Science and math courses
• Two teacher recommendations

OUR PROGRAMS:

SEP
Holland Summer Enrichment Program exposes you to concepts in science and technology through hands-on laboratory experiences, lectures, discussions, field trips, and facility tours.
Sun., Jul. 15–Fri., Jul. 20, 2018

SSRP
Holland Summer Science Research Program introduces you to scientific research and integrates you into a research lab where you will execute a small research project. You will communicate your work in a poster session at the end of the program.
Sun., Jul. 8–Sun, Jul. 15, 2018

RISE
Holland Research Initiative in STEM Education provides STEM career and college training for rising high school seniors (as of Fall 2018, current 11th grade). Attend research-intensive lectures, hands-on activities, and research ethics, goals, leading questions, and standard methodologies of their respective fields. Attend college planning workshops covering academic preparation for credit-bearing coursework in STEM, college admission procedures, financial advising, and access to scholarship programs. $600 stipend awarded upon successful completion.
Sun., Jun. 17–Fri., Jun. 29, 2018

APPLICATION DEADLINE: Monday, April 9, 2018

SEP (Holland Summer Enrichment Program) application deadline has been extended to Wednesday, April 25, 2018. (SSRP and RISE applications are closed.)
