

Changing the face(s) of science . . .

Jim Holland Summer Science Programs

at Indiana University in Bloomington, Ind.

Our goal is to address the ethnic and racial disparities that exist and to increase diversity in the STEM fields.

WANTED:

High-achieving, underrepresented students in grades 8-11 who are curious about science.

ELIGIBILITY:

- At least 3.0 GPA (non weighted)
- Science and math courses
- Two teacher recommendations

OUR PROGRAMS:

SEP

Holland Summer Enrichment

Program exposes you to concepts in science and technology through hands-on laboratory experiences, lectures, discussions, field trips, and facility tours.

Sun., Jul. 14–Fri., Jul. 19, 2024

integrates you into a research lab where you will execute a small research project. You will communicate your work in a poster session at the end of the program.

Sun., Jul. 7–Sun., Jul. 14, 2024

Attend research-intensive lectures and hands-on activities. IU faculty members provide insight into the scientific process, research ethics, goals, leading questions, and standard methodologies of their respective fields. Attend college planning workshops covering academic preparation for credit-bearing coursework in STEM, college admission procedures, financial advising, and access to scholarship programs. *\$600 stipend awarded upon successful completion.*

Sun., Jun. 16–Fri., Jun. 28, 2024

SSRP

Holland Summer Science Research Program

introduces you to scientific research and

RISE

Holland Research Initiative in STEM Education

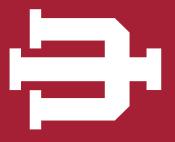

provides STEM career and college training for rising high school seniors (as of Fall 2024, current 11th grade).

APPLICATION DEADLINE: Friday, April 12, 2024
