Jim Holland Summer Science Programs

at Indiana University in Bloomington, Ind. [2021 programs are online.]

WANTED: High-achieving, underrepresented students in grades 8-11 who are curious about science

ELIGIBILITY: At least 3.0 GPA (non weighted), science and math courses, two teacher recommendations

OUR PROGRAMS:

**SEP** The Holland Summer Enrichment Program exposes you to concepts in science and technology through hands-on laboratory experiences, lectures, discussions, and more.  
Sun., Jul. 18–Fri., Jul. 23, 2021

**SSRP** The Holland Summer Science Research Program introduces you to scientific research and integrates you into a lab where you execute a small research project. Communicate your work in a presentation at the end of the program.  
Sun., Jul. 11–Fri., Jul. 16, 2021

**RISE** The Holland Research Initiative in STEM Education provides STEM career and college training for rising high school seniors (as of Fall 2020, current 11th grade) through research-intensive lectures and hands-on activities. IU faculty members provide insight into the scientific process, research ethics, goals, leading questions, and standard methodologies of their respective fields. Attend college planning workshops. $400 stipend awarded upon successful completion.  
Sun., Jun. 20–Fri., Jun. 25, 2021

APPLICATION DEADLINE: Fri., Apr. 16, 2021
