

2011 James P. Holland Memorial Lecture

About Adriana Briscoe:

Professional Experience and Education

- University of California, Irvine: Associate Professor, 2007 – present; Assistant Professor, 2002 – 2007.
- University of Colorado Health Sciences Center, Research Associate, Department of Cellular and Structural Biology, 2001 – 2002.
- University of Arizona, Tucson, Research Associate, Molecular and Cellular Biology, 1999 – 2001.
- Harvard University, Ph.D., Biology, 1999.
- Stanford University, M.A., Philosophy, 1993.

Honors and Affiliations

- Associate Editor, *Molecular Biology and Evolution*, 2005 – present.
- Member, National Evolutionary Synthesis Center Advisory Board, 2009 – present.
- Named one of 30 “Young Investigators to Watch” by *Genome Technology Magazine*, 2008.
- Diversity Award, Federation of American Societies for Experimental Biology, 2008.
- Ford Foundation Postdoctoral Fellowship (Colorado), 2000 -2001.
- Center for Insect Science NIH Postdoctoral Fellowship (Arizona), 1999 -2000.

October 10, 2011

Myers Hall 130
Twelfth Lecture in the Series

The Genetic Basis of Adaptation in the Color Vision Systems of Mimetic Butterflies

Photo by Mindy Schauer/The Orange County Register

by

Adriana Darielle Mejía Briscoe

Associate Professor of Ecology & Evolutionary Biology
University of California, Irvine

The Briscoe lab investigates the molecular and organismal co-evolution of butterfly wing color, color vision, and behavior

Indiana University Holland Lecture Sponsors: Office of the Vice President for Diversity, Equity, and Multicultural Affairs; the Office of the Provost; the Office of the Vice Provost for Research; the College of Arts and Sciences; the Department of Biology and its National Institutes of Health Graduate Training Grant and its National Institutes of Health Initiative for Maximizing Student Diversity in Scientific Research; and the Medical Sciences Program
